

Hygiene: The principle of maintaining health and the practices put in place to achieve this.

Infectious disease: A disease that can be spread, for example, by air, water or interpersonal contact. An infectious disease is designated under Victorian Law or by a health authority (however described) as a disease that would require the infected person to be excluded from an education and care service (refer to *Dealing with Infectious Diseases Policy*).

Neutral detergent: A cleaning agent available commercially and labelled as 'neutral' or 'neutral pH'.

Sanitising: A process that destroys micro-organisms. Sanitising a surface can reduce the number of micro-organisms present. The process of sanitisation usually involves ensuring a surface is thoroughly cleaned with both heat and water, followed by the use of chemicals.

- arranging for the service to be cleaned and sanitised regularly, including floors and other surfaces, as per the cleaning contract and schedule
- reviewing the cleaner's contract and schedule on an annual basis
- contacting the local council's Environmental Health Officer for information about obtaining a needle/syringe/sharps disposal unit and instructions for its use
- ensuring the service has laundry facilities or access to laundry facilities, or other arrangements for dealing with soiled clothing, nappies and linen, including hygienic facilities for storage

- respecting diverse styles of toileting children due to cultural or religious practices
- respecting the possible need to maintain privacy of toileting and dressing.

In relation to cleaning toys, clothing and the service in general:

- removing toys that a child has sneezed or coughed on (place in a 'toys-to-be-

In relation to effective environmental cleaning:

- clean with detergent and warm water followed by rinsing and drying to remove the bulk of infectious organisms from a surface. Particular attention should be paid to the following:
 - toilets/sinks must be cleaned daily and separate cleaning cloths/sponges must be used for each task
 - mouthed toys must be washed immediately or placed in a separate container for washing at a later time
 -
